Keep Your Students Authentically Engaged
Unicheck is a plagiarism prevention tool that helps instructors monitor student discussions for originality and authenticity directly from Harmonize, an online discussion platform that works with your LMS to create an interactive space for dynamic discussion. With Unicheck, student work is automatically compared to over 40 billion web pages, educational databases, and library files in real time, automatically identifying similarities and flagging potential problems.

Elevate the Learning Experience
Harmonize unites instructors and students in a shared, social learning experience that inspires participation and discussion. Unicheck integrates seamlessly with Harmonize and checks quickly for similarities between student work and other uncited or miscited sources. It opens a door for instructors to have more productive conversations with their students about originality, authorship, and responsibility--concepts that are sometimes difficult to grasp in a fully digital world.

Get Students Back on Track
An “originality score” visible only to the student and instructor, is available in seconds. Easy-to-read, comprehensive similarity reports are automatically generated for each assignment, help instructors provide better feedback to students who may need to revise their work.

Encourage Critical Thinking
In the online classroom, the discussion platform is often the only place where students can engage in a free exchange of ideas. Unicheck provides another tool that instructors can use to help students make original contributions and hone valuable critical thinking skills that they will use over the course of their careers.

A Trusted Source
Unicheck serves more than 100,000 educators from over 1,100 institutions in 69 countries worldwide.
